

Key Information Document (“KID”)

Purpose

This document provides the investor (“you”) with key information about this investment product. It is not marketing material. The information is required by law to help the investor understand the nature, risks, costs, potential gains and losses of this product and to help the investor compare it with other products.

3.60% p.a. Reference Entity Certificate with Conditional Capital Protection in EUR on Numericable Group

Swiss Securities Number: 32339049 | ISIN: CH0323390499

Issuer of this Product: **Raiffeisen Switzerland B.V.** | www.raiffeisen.ch/structuredproducts | Call +41 (0)44 226 72 20 for more information

KID Manufacturer: **Leonteq Securities AG** | Competent Authority: the relevant Authority | Production date of the KID: 06.08.2019

The investor is about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

This product is a Swiss Uncertificated Security under Swiss law.

Objectives

Objective of the product is to provide the investor with a specified entitlement according to predefined conditions. The product is linked to the creditworthiness of ANGLOGOLD ASHANTI LTD, AVIS BUDGET GROUP INC, INEOS GROUP HOLDINGS SA, SFR GROUP SA as Reference Entities. Payments of full coupon and redemption amounts will only be made under the condition that no Credit Event (as described below) with respect to the Reference Entity(-ies) occurs. Accordingly, investors bear the credit risk of the Issuer of the products and the credit risk of the Reference Entity(-ies). Subject to the occurrence of a Credit Event, the product has a fixed lifetime and will be due on the Scheduled Redemption Date. In addition, the investor is entitled to receive a Coupon payment on each Coupon Payment Date on the basis of the Coupon Rate regardless of the performance of the Underlying during the lifetime, multiplied by the Day Count Fraction and further adjusted by the Adjustment Factor, as defined below. The possibilities for the redemption are as follows: The possibility for the redemption of the product is as follows:

- In case no Credit Event has occurred during the Credit Event Observation Period, the investor is entitled to receive from the Issuer on the Scheduled Redemption Date per product a Cash Settlement in the Settlement Currency that equals the Conditional Capital Protection Amount
- In case a Credit Event has occurred during the Credit Event Observation Period with respect to one or more Reference Entities, as reasonably observed and determined by the Calculation Agent, the Liquidation Amount.

The Liquidation Amount is expressed in the Settlement Currency and equals (i) the Denomination multiplied by the Conditional Capital Protection Level less (ii) the pro rata share of all losses for unwinding or the settlement of any hedge position relating to the Affected Reference Entities/Obligations and less (iii) the pro rata share of any costs generated by the unwind or settlement of such hedging positions. The Issuer expects that its hedge position will comprise one or more credit default swaps inter alia relating to the Reference Entity and/or the direct or indirect holding of bonds issued or guaranteed by the Reference Entity. In case of a credit default swap, the unwinding or the settlement of such hedging position will for example require a payment of the Issuer to its counterparty equal to the losses determined for such counterparty on the basis of the likely deteriorated market value of the Reference Entity's obligations (which can be determined by way of a public auction). In case of a direct or indirect holding of bonds, the unwinding or the settlement of such hedging position may for example result in significant losses from an early liquidation of the bonds during unfavorable market conditions for the sale of the Reference Entity's debt. The Redemption Amount may also be zero. In the case of the occurrence of a Credit Event the redemption may be postponed until the Liquidation Amount has been determined. The occurrence of a Credit Event will be determined by the Calculation Agent and can be based on any publicly available information or announcements of the International Swaps and Derivatives Association, Inc. (ISDA). ISDA establishes and publishes international market standards for derivative transactions, including credit derivatives. In order to enable a uniform and market-wide application of such standards, ISDA has set up a Committee (ISDA Credit Derivatives Determinations Committee) consisting of financial institutions and other market participants who are significantly involved in transactions in credit derivatives. This Committee makes, inter alia, market wide determinations as to the occurrence of events which are regarded as credit events under that ISDA standards. Credit Events for the purposes of the products mirror the ISDA market standard and include inter alia the following events:

- Bankruptcy – Comprises all forms of insolvency (for example the occurrence of inability to pay or excessive indebtedness), liquidation, composition proceedings and the occurrence of enforcement proceedings in the assets of the Reference Entity for example as a result of non-fulfilment of bonds, loans or other borrowed money.
- Failure to Pay – Occurs if payment obligations to creditors, for example from bonds or loans, are not duly met, not met in good time or not met at all.
- Restructuring – Comprises any form of restructuring of bonds, loans or other borrowed money. These include a reduction in amounts of interest or principal, a postponement of deadlines for interest or principal payments and a change in the ranking in which creditors will get back their capital in the event of insolvency, in any case provided that the restructuring takes place due to a deterioration in the financial condition of the Reference Entity. Furthermore, a change in the currency of the payment obligation can constitute a Restructuring.

Early Redemption:

The Issuer has an unconditional right to call all Certificates for early redemption (the “Termination Right”) at any time without previous notice by announcement (the “Termination Announcement”). The Termination Announcement will specify the Final Fixing Date and the respective Early Redemption Date. In case the Issuer's Termination Right has been exercised, the Investor will receive the Liquidation Amount on the Early Redemption Date and the Product will be terminated. In case of an exercise of the Issuer's Termination Right, the Liquidation Amount is expressed in the Settlement Currency and equals (i) the Denomination multiplied by the Conditional Capital Protection Level less (ii) the pro rata share of all losses for unwinding or the settlement of any hedge position relating to the Reference Entities and Reference Obligations and less (iii) the pro rata share of any costs generated by the unwind or settlement of such hedging positions. The Liquidation Amount may be significantly lower than the Conditional Capital Protection Amount or even zero. No current and no further coupon amounts will be payable to the Investor. The Adjustment Factor equals the difference between (a) 100% and (b) the sum of Weights in respect of all Reference Entities/Reference Obligations (if any) affected by a Credit Event as of, but excluding, the respective Coupon Payment Date.

Currency of the product (Settlement Currency)	Euro (“EUR”)	Minimum Investment / Minimum Trading Lot	EUR 1'000.00
Issue Date	25/05/2016	Initial Fixing Date	18/05/2016
Scheduled Redemption Date	The earlier of: a) 12/07/2021 b) in the case of an exercise of the Issuer's Termination Right, the date specified as the Early Redemption Date in the Issuer's Termination Announcement (“Early Redemption Date”). In case a Credit Event during the Credit Event Observation Period or an Event Determination Date has occurred, the Credit Event Redemption Date	Final Fixing Date	20/06/2021
Denomination	EUR 1'000.00	Issue Price	100.00%
Initial Fixing Level	An observed price of the Underlying on the Initial Fixing Date on the Related Exchange.	Final Fixing Level	Official close of the Underlying on the Final Fixing Date on the Related Exchange.

The scenarios shown illustrate how the investor's investment could perform. The investor can compare them with scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of the product varies, and are not an exact indicator. What the investor gets back will vary depending on how the market performs and how long the investor keeps the investment/product. The stress scenario shows what the investor might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay the investor. The figures shown include all the costs of the product itself, but may not include all the costs that the investor pays to the advisor or distributor. The figures do not take into account the investor's personal tax situation, which may also affect how much the investor gets back.

3. What happens if the Issuer is unable to pay out?

The obligations of the Issuer under this product are guaranteed by a first demand guarantee of Raiffeisen Switzerland Cooperative, St. Gallen, Switzerland ("Guarantor"), governed by Swiss law, which protects investors in case the Issuer is unable to fulfil its obligations under the product. A total loss of the investor's capital invested is possible if both the Issuer and the Guarantor are unable to fulfil their obligations in respect of the product and the guarantee, respectively. The product is a debt instrument and as such is not covered by any deposit protection scheme.

4. What are the costs?

Cost over time

The Reduction in Yield (RIY) shows what impact the total costs the investor pays will have on the investment return the investor might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself. They include potential early exit penalties. The figures assume the investor invests EUR 10,000. The figures are estimates and may change in the future. The person selling to the investor or advising the investor about this product may charge other costs. If so, this person will provide the investor with information about these costs, and show the investor the impact that all costs will have on the investor's investment over time.

Investment EUR 10,000	If the investor cashes in the product after 1 year	If the investor cashes in at the end of the recommended holding period
Total costs	EUR 191.04	EUR 143.24
Impact on return (RIY) per year	1.91%	0.74%

Composition of Costs

The table below shows:

- the impact each year of the different types of costs on the investment return the investor might get at the end of the recommended holding period.
- the meaning of the different cost categories.

This table shows the impact on return per year

One-off costs	Entry costs	0.74%	The impact of the costs already included in the price.
	Exit costs	-	Not applicable
Ongoing costs	Portfolio transaction costs	-	Not applicable
	Other ongoing costs	-	Not applicable
Incidental costs	Performance fees	-	Not applicable
	Carried interests	-	Not applicable

5. How long should the investor hold it and can the investor take money out early?

Recommended holding period: 12/07/2021 (until Redemption Date)

The objective of the product is to provide the investor with the redemption profile described under "1. What is this product?" above.

There are no possibilities to take the investor's money out early other than to sell the product off-exchange.

In unusual market situations, or in the event of technical faults/disruptions, a purchase and/or sale of the product can be temporarily hindered, or may not be possible at all.

6. How can the investor complain?

Any complaint regarding the person advising on, or selling, the product on the relevant website can be submitted directly to that person.

Any complaint regarding the product or the conduct of the Issuer of this product can be submitted to the following address: Leonteq Securities AG, Europaallee 39, 8004 Zurich, Switzerland, kid@leonteq.com, www.leonteq.com.

7. Other relevant information

Any additional documentation in relation to the product and in particular the simplified prospectus and the programme (including any supplements hereto) are published on the Issuer's website (www.raiffeisen.ch/structuredproducts). In order to obtain more detailed information – and in particular details of the structure of and risks associated with an investment in the product – the investor should read these documents.

Furthermore, Leonteq created the KID after having made certain assumptions and exercised certain discretion with respect to calculations of key figures and performance scenarios and is going to reassess and adapt its assumptions as it deems appropriate from time to time.
